MEMORANDUM FOR All Eighth United States Army Assigned Soldiers and Civilians

SUBJECT: Eighth United States Army (EUSA) Command Policy Letter # 19 --
Command Curtailments and Extensions for Battalion and Brigade Commanders

1. Purpose. To define the EUSA/USFK Battalion and Brigade curtailment and extension authority.
2. Discussion. Department of the Army policy delegates the authority to curtail/extend Command Selection List Command tours up to 30 days to commanders in the grade of major general or higher in coordination with DA PERSCOM. However, I have elected to retain and restrict this authority. Effective immediately, the EUSA/USFK policy for curtailment or extension of CSL Command tours is:
 - a. Commanders of 2d Infantry Division and 19th Theater Support Command can approve curtailments or extensions of command tours up to 14 days. Commanders will work actions with the Commander, 8th PERSCOM, who will coordinate with DA PERSCOM.
 - b. Commanding General, EUSA, is the approval authority for curtailments for all non-2d Infantry Division and 19th TSC units regardless of time requested and for all command tour curtailments of 15-30 days.
 - c. The CINC, USFK, is the approval authority for curtailments of 31-60 days in coordination with DA PERSCOM.
3. All command tour curtailments/extensions requiring CINC or CG, EUSA approval, or actions requiring Department of the Army exception to policy, will be forwarded through Commander, 8th PERSCOM, for coordination and processing to the appropriate approval authority.

DANIEL R. ZANINI
Lieutenant General, USA
Commanding
